Dear Juan,

BallotTrax is a one of a kind, complete two way ballot tracking and voter notification system only available from BallotTrax a i3logix company. This patent pending product is unique to i3logix and therefore a sole source procurement item.

BallotTrax is the first and only system that tracks mail ballots round trip and sends notifications to the voter using text message, email or voice call. Arapahoe County will be able to continue offering its voters transparency to the vote by mail process by tracking their ballot every step of the way from printing to the voter and back to Arapahoe County Elections.

Arapahoe County will continue to have the ability to use the BallotTrax system to track the ballots in the vote by mail system and using that information to predict work flow and administrative needs.

The BallotTrax team looks forward to continuing our working relationship with Arapahoe County.

Sincerely
