RE: Comments on Arapahoe County's Draft Traffic Impact Study

Dear Arapahoe County Commissioners and Staff:

Crestone Peak Resources LLC ("Crestone") is an independent energy company focusing on the acquisition, exploration, development, and production of oil and gas reserves in the Rocky Mountain Region. A portion of Crestone's 150,000-acre position falls within Arapahoe County.

Crestone recognizes the potential impact this Traffic Impact Study and the proposed traffic impact fee could have on Crestone's operations. Crestone appreciates the opportunity to collaborate with the County in this process.

Crestone endorses the comments submitted by the Colorado Oil and Gas Association and the America Petroleum Institute in their respective letters to the County Commissioners. Crestone works closely with these organizations and is aligned with their position.

Crestone would like to reserve the right to make additional comments to the County and oral statements when appropriate.

Respectfully,

Ashley Campbell  
Government Affairs Advisor  
Crestone Peak Resources
