Residential New Construction - Basement Finish	This will be a project to finish the basement. Much of the work was done by the original home builder including a framed/osb subfloor, insulated walls, furnace/AC venting, bathroom drains, fire alarms, etc. No structural walls are to be installed or modified. Stairs to basement were finished by the original home builder. Contractors will be utilized for bathroom plumbing and some electrical, including connection to the breaker box and installation of the two new breakers. All windows and window wells were installed by home builder and meet egress code requirements. Ceiling heights will be 7'6" except for occasional beams/ducting. Separate file with plans/notes included. Plans include a finished bedroom, bathroom, den, and reading nook, as well as an unfinished storage area.
