## ANNUAL MAINTENANCE PERMIT TERMS AND CONDITIONS

1. This annual maintenance permit is valid from the date of issuance through December 31<sup>st</sup> of the year indicated on the application. Applicant must provide the name, address and field contact phone number of the contractor(s). Bond must be verified.
2. A copy of this permit and provisions shall be kept on-site at all times that work is in progress.
3. This annual maintenance permit does not authorize any concrete or pavement disturbance; excavation or installation of new facilities. Existing facilities may be removed and replaced with new facilities of the same size. Upgrades of cabinets are not permitted.
4. Applicant/Contractor shall contact Arapahoe County, Public Works and Development, Engineering Services Division, Inspections via telephone (720) 874-6500 before work activities begin. Such notification shall include an estimated construction schedule related to specific locations and applicable traffic plan to be utilized at each location, as well as contact information for the on-site superintendent.

NOTE: Occurrence of three cases of failure to properly notify Arapahoe County of applicant's intent to work will constitute sufficient cause for revocation of said permit. Arapahoe County at that time will reserve the right to require another annual maintenance permit or separate Right-of -Way permits for each project.

5. Applicant/Contractor shall modify the proposed schedule as necessary to prevent multiple contractors working simultaneously too closely together to allow for proper traffic control
6. Applicant/Contractor shall have traffic control plans, per Manual on Uniform Traffic Control Devices (MUTCD), for each different type of working condition and sites, which can reasonably be anticipated for the extent of the permit. For work within 300 LF of signalized intersections, applicant shall have an **approved traffic control plan** specific to the signalized intersection. Maximum length of the work zone area for lane closures shall not exceed 200 lineal feet.
7. For any work on rural roadways, which requires any portion of the traffic lanes to be utilized, the Applicant/Contractor shall have an approved traffic control plan specific to said roadway. Maximum length of lane closure to be determined by field conditions. No traffic control devices will be left standing on any project overnight.
8. Sidewalk closures shall be per MUTCD, with signage at nearest controlled crossing notifying pedestrians of closure and directing them to cross over.
9. No vehicles larger than 1 ton pickups with 10,000 pound GVW shall be allowed on sidewalks without prior notification to Arapahoe County. Applicant is responsible for all damage to sidewalks as observed by Arapahoe County unless such damage was documented with pre-construction inspection.
10. If landscaping/irrigation becomes damaged during work activities, Applicant shall notify the County of impacts to areas and restore the area under a separate ROW permit for the restoration work.
11. Parking is not permitted on streets of insufficient width. Side street parking is encouraged as Parking is not permitted on thoroughfares.
12. Hours of work in residential areas are Monday thru Saturday. 8 am to 6 pm, Sunday 10 am to 6 pm, unless otherwise approved by the inspector. Any night work will require special notification. **Unless otherwise noted, lane closures are permitted only between 8:30 a.m. and 3:30 p.m.**
